

Why choose Macon Technologies for PC repair?

- **Personal attention** - You will be treated with the personal attention you deserve. We understand everyone's problems and situations are different. We will take the time to listen to what's happening and decide on the proper solution.
- **Prompt service** - Your computer has become an essential and enjoyable tool for your business and your personal life. When your computer is broken, it is a stressful situation. Your PC is important to you. So, it is important to us. We'll get it repaired and returned to you as quick as possible.
- **Honesty** - We will always provide you with an estimate for the repair and discuss your options with you. If you bring us a PC that isn't worth repairing, we'll tell you. If you'd be better off buying a new PC instead of replacing your existing one, we'll tell you.
- **We'll come to you!** - Does the thought of unplugging and dragging your computer to a store or shop sound unpleasant? No problem. We'll come to you.
